Forecast for today, Tuesday 07.04.2026
 Plenty of sunshine

Reliability: 90 %

Forecast for today

The high-pressure system is set to persist, bringing another unseasonably warm spring day. The sun will shine and the skies are mostly clear. A light foehn wind continues to blow in the areas near the alpine crest. Spring-like to early summer maximum temperatures of 20° to 28°.

Outlook for the next days

Thursday 09.04.2026

1° / 9° | 18° / 26°

On Thursday, a few high clouds will appear alongside the sunshine.

Friday 10.04.2026

0° / 9° | 12° / 20°

On Friday, a weak cold front will pass through. The sun will only shine intermittently and a few showers are possible in places, whilst a north wind will pick up. Temperatures will drop by a few degrees.

Saturday 11.04.2026

-2° / 5° | 14° / 22°

On Saturday, it will be very sunny again, but not quite as warm.

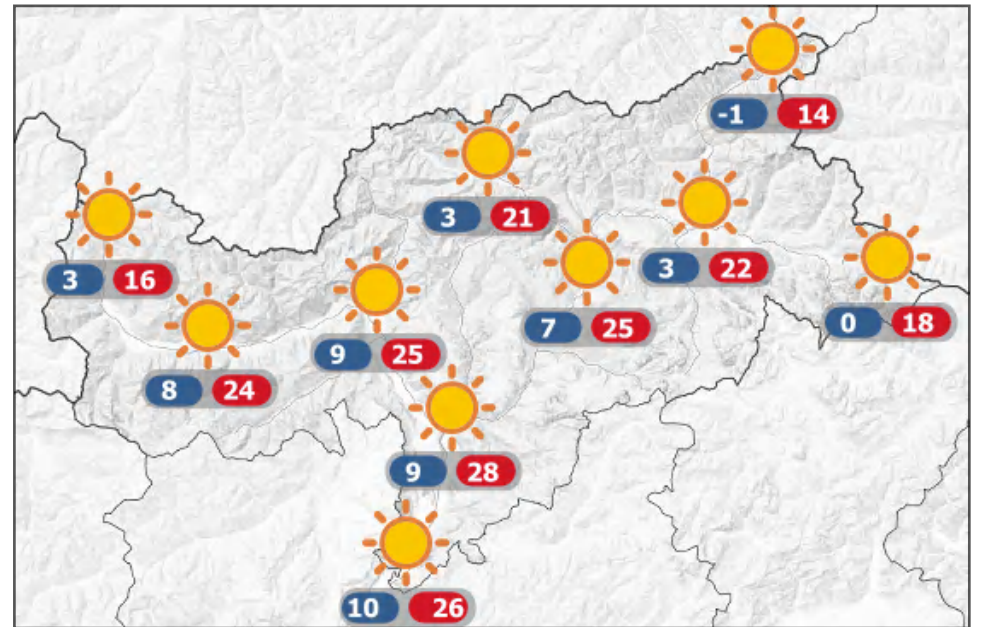

Sunday 12.04.2026

-2° / 6° | 14° / 21°

Sunday will also bring plenty of sunshine.

Forecast for tomorrow, Wednesday 08.04.2026
 Sunshine

Reliability: 90 %

Forecast for tomorrow

High pressure and warm air masses are set to bring another early summer's day. The sun will shine from morning till night from a largely cloudless sky. In the northern valleys, the foehn wind will continue to blow. After lows of -1° to +12°, the maximum temperatures will rise to 20° to 28°.
