

Mountain weather bulletin - Overview

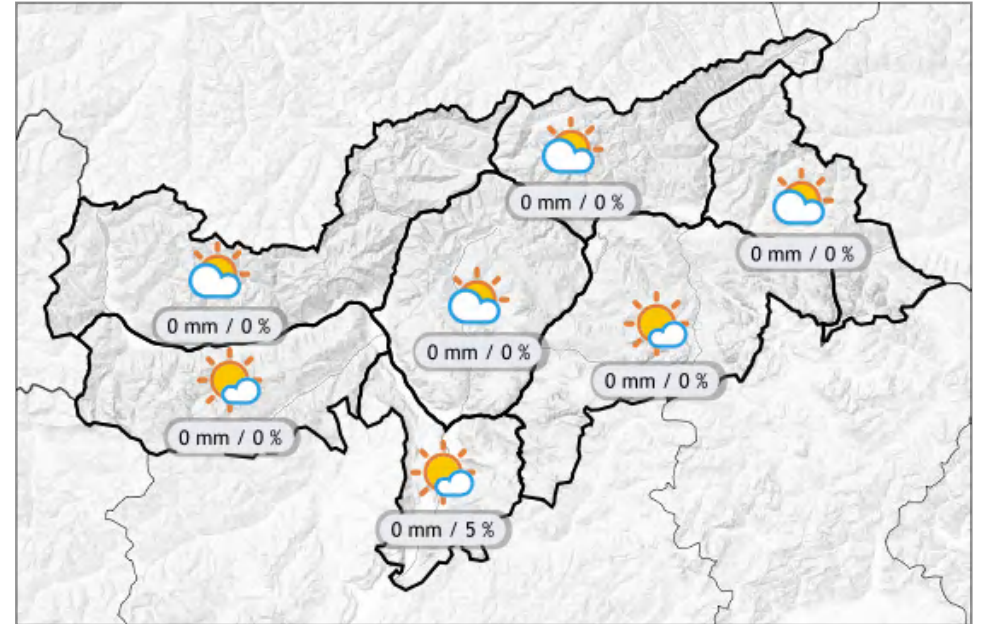

Tuesday, 07.07.2026

Forecast for today, 07.07.2026

Good mountain weather

Forecast for tomorrow, 08.07.2026

Reliability: 80 %

General weather situation

Central Europe, and therefore the Alpine region as well, remains under the influence of a north-westerly upper-level flow.

Forecast for today

In the morning, conditions are very good with partly clear skies. High clouds will soon appear above the summit level, whilst the few cumulus clouds in the afternoon will remain small and harmless.
